

European Research Council – Funding Opportunities

European Research Council (ERC) grants support individual researchers of any nationality and age who wish to pursue their frontier research. The ERC encourages in particular proposals that cross disciplinary boundaries, pioneering ideas that address new and emerging fields and applications that introduce unconventional, innovative approaches (<http://erc.europa.eu>).

Scientists of universities and research institutions who wish to get closer insight into the ERC's intentions and funding opportunities are invited to participate in this information event.

Monday, 16.12.2019, 13:00, HS XII Löwengebäude

**Martin Luther University Halle-Wittenberg,
